## NEEDS TO BE RECONSTRUCTED

Petition Sent to County Officials Asks  
That Citizens be Requested  
To Sign It.

Now and then a citizen is found who seems unwilling to recognize that the war is over, but they are few and far between, and it is well for the country that this is so.

A petition signed by C. T. Anderson, of Anderson, Fla., a little hamlet, in the western part of the state, has been sent to the county commissioners and other officials all over the state, which for uniqueness and crack brained proposition is superior to any thing of the kind the News has ever handled. The petition is as follows:

"Treasured deep and unswerving in the human heart, cherished from infancy with zealous vigilance, snuggled in the folds of Liberty, and as the smoldering flames of Aetna,—aye, even before God's Infinite Hand formed this terrestrial ball, we find that no beings can, with all grace withstand the vicissitudes that the heartless and unthinking tyrant seeks to impose upon a people.

With patience, we the people of this, our fair Southland have borne the insults heaped upon us. Never has history reached a date that can surpass the deplorable blunders of our present ruler. He has flatly refused to hear the voice of the people; compelling them to measures more degrading to their hearts than death. He has, with his boasted threats, endangered our very existence as a nation. He has closed our postoffices without cause, and now, to show us that we are to become his unrelenting servants, he seeks to reduce our representative power. Let us appeal to the liberty loving world for justice. The day has dawned; dark shadows are no more. Already in mighty tones can be heard the verdict of the Ruler of All Good, "Liberty!"

We, the people and citizens of this, our great commonwealth, in fear of the Almighty, believe that there should be some steps taken at

once to check the onward march of the despot and for this reason, in all soberness of mind and in the presence of a Liberty-loving God, do hereby petition those most noble bodies, the House of Representatives and the Senate to cause a measure to become a law of this, the State of Florida to set apart the sum of thirty thousand dollars (\$30,000), for the purpose of carrying our public mails when refused by the United States of America. We further agree and petition that the members of the House and Senate cause one hundred thousand (100,000) stamps to be published at once; that the stamps bear the bust photo of President Jefferson Davis, a background of the Confederate Flag; that the said stamps bear the value of two cents; that the figure two (2) be inscribed on the two bottom corners; the said stamps bear the inscription above: "The Confederacy," and below, "Davis;" that this issue be distributed among each of the several counties at the pleasure of the people, at their par value; that the revenue thus collected be retained for the publication of other issues.

Trusting in God for guidance, we cause our hearts and hands to sign.

### A Well Kept Truck Farm

About two miles northwest of the city is a truck farm, the property of Jno. M. Fuquay, which will no doubt reap him good returns for the time and money spent on it.

Mrs. Fuquay has a ten acre tract on which he has planted one acre of Irish potatoes, 1200 tomatoe plants set out, muskmelons, watermelons, and vegetables of all kinds. Besides this he has peach, fig and persimmon trees growing nicely.

Mr. Fuquay has had 25 years experience as a trucker and has heretofore been successful.

Rev. S. S. Gibson and wife of Pittsburgh, Pa., are taking in the beauties of Daytona. Mr. Gibson is representing the Pittsburgh Dispatch and other Pennsylvania papers. The Daily News acknowledges a pleasant call.

## THE MODERN BATTLE.

Directed From a Desk Many Miles  
From the Scene of Hostilities.

Today circumstances place a commander completely out of sight of his army. He is usually located at least ten or fifteen miles from the firing line and in many instances is even farther away. He sits in a room whence radiate telephone and telegraph lines to the remotest portions of the field, placing him in instantaneous communication with his principal subordinates.

The famous painting of Napoleon at Austerlitz represents in the popular eye a commanding general directing a great battle. But it belongs to the warfare of the past. The artist who aspires to depict the direction of a modern battle must show a man seated at a table on which is spread a large map dotted with little flags indicating the location of the opposing forces with an ordinary desk telephone at his elbow. In an adjoining room is a switchboard, where sit alert operators ready to connect the commander with any of the field headquarters. From this room also comes the steady clicking of a score of telegraph instruments busily receiving and sending messages.

But for the military uniforms of the messengers and the going and coming of staff officers the man at the table might be a stock operator directing, through his brokers, a deal in steel or railroad securities. Even the stenographer at his elbow is not lacking, but sits quietly taking messages under dictation to be transmitted presently by telegraph. Other officers copy these messages and file them away after putting them under a time recording stamp to show the hour they were sent, so that afterward delinquencies may be located and responsibilities fixed.

Thus, apart from the excitement and horrors of the battlefield, a general sits at a desk and calmly directs the battle. He hears that this attack has been repulsed, that reinforcements are needed here, that ammunition is running low there, that this division has been cut into pieces, that those troops have been two days without food, and so on, along his forty miles of front, and takes his measures accordingly.—Thomas F. Millard in Scribner's.

### New York's Great Canal.

Army engineering experts declare that the great canal in the state of New York will be of enormous military value in time of war. "The uses to which the canal may be put in the event of war," says Colonel Thomas W. Symonds, who is in charge, "have not been sufficiently understood. For instance, torpedo boats, gunboats and all the smaller auxiliary craft of the navy may be taken from the ocean to the lakes or from the lakes to the ocean through the ditch. The tremendous quantities of supplies that would have to be moved before, during and after war could also be transported through the same channel at a great saving of expense over the cost of transport by rail."

### Chorus Girls and the Peacocks.

An epidemic of matrimony with chorus girls has broken out again in the British peerage. Three young lords and a marquess are depleting the stage of the same theater. Contrary to the recent announcement by the solicitor of another peer that as soon as he had married an American heiress his debts would be paid, these theatrical alliances can have no financial motive. Yet the chorus girl marriages seem to turn out as well as those arranged on purely business principles, and marriages out of their own circle keep the British peerage more virile than the continental nobility, with their interminable quarterings.

### Protected Cruisers.

The London Engineer is of the opinion that protected, or light armored naval vessels are of little use. On this point it says that the changes now going on with English ships in commission are of a drastic nature, and they are attributed to Admiral Fisher, who is understood to hold the theory that

protected cruisers and such craft are of no use today and that the British squadrons should be armored. It is certainly the common sense view. They cannot fight, and they cannot run away, and it is a matter of considerable congratulation that the authorities seem at last to have determined to have our fleets war fleets.

### The Old Constellation.

The frigate Constellation, the oldest ship in the American navy, after having been thoroughly overhauled and made taut and trim again, was recommissioned at the New York navy yard, in Brooklyn. Launched in 1797, the historic ship has had a memorable career, and those who have examined her in her refitted condition express the opinion that she is good for another hundred years. Her active days are probably over, however, and it is as a receiving ship at Newport that she will still play an honorable part in the American navy, to which she is an inspiration.

### Kept His Wits.

A man hopelessly lost in the bush in South Australia, after wandering about for four days, came across the telegraph line between Adelaide and Port Darwin. He had not the strength to go farther, but managed to break the wire. He then made himself as comfortable as possible and waited. The telegraph operators were sent along the line, and they came to the wanderer in time to save his life.

## PLAYS AND PLAYERS.

Picture Francis Wilson with bare knees, little leather "pants," a Tyrol cap, and you have a conception of Cousin Billy as he appears in Clyde Fitch's latest piece, written from a play by Eugene Labiche.

A letter from Danville, Ill., narrates that Miss Blanche Walsh averted a panic there the other night by going steadily on with her performance after the lights were suddenly extinguished by the blowing out of a fuse.

"Strongheart," the new play in which Robert Edson appears, has had a successful opening in St. Paul, Minn. The author, William C. de Mille, has laid the scenes of this unconventional play of college life at Columbia university.

Wagenhals & Kemper have signed contracts with Robert Drouet for his appearance as leading man for Blanche Walsh in Clyde Fitch's new play, "The Woman in the Case," to be presented at the Herald Square theater, New York.

Because of the shortness of the performance of "The House of Burnside" Edward Terry appears in the character of Sergeant Buford in the trial scene of "Bardell Versus Pickwick" at 10:30 every night at the Princess theater, New York.

Before the close of Sir Charles Wyndham's season at the New Lyceum theater, New York, which terminates at the end of January, he has decided to present the comedy of Henry Arthur Jones, entitled "The Case of Rebellious Susan."

### SPANISH SIFTINGS.

Sunday bullfights in Madrid have been abolished by the Institute of Social Reform.

Sufficient sherry wine to supply the world's demand for a quarter of a century is said to be contained in the storehouses of Jerez de la Frontera, in Spain.

The Alhambra is in danger of collapse. Its guardian, the architect Contreras, estimates that \$300,000 will be needed to preserve it, but it is doubtful if the Spanish government can afford to give that sum.

Pickpockets and swindlers are multiplying in Madrid at a startling rate, and they carry on operations in the principal streets and squares, under the eyes of the poorly paid policemen, many of whom are suspected of being their accomplices.

That the number of illiterates in Spain is being slowly reduced is evidenced by the fact that in 1800 only 19.97 per cent of the population could read and write, in 1877 the proportion had increased to 24.48 per cent, ten years later 28.40 per cent and in 1900 to 33.45 per cent.

### Litter on the Streets.

The St. Petersburg, Fla., Times of recent date, in an editorial calls the attention of its readers to the throwing of paper and trash on the streets of that city, and suggests the placing of receptacles at convenient places to receive such matter and that a law be enacted making it an offence to throw such refuse matter on the streets.

The Village Improvement Association of Daytona has had barrels painted green, with the letters V. I. A. in white thereon, placed at convenient intervals on the streets for the reception of all trash likely to be thrown on the streets by pedestrians. These barrels are not at all unsightly, but, for the most part, are of no use whatever. Few use them, judging by the amount of scrap paper and orange peelings frequently seen on the streets and sidewalks.

The habit which many have of tearing wrappers from their papers and casting them on the ground is reprehensible, and the practice should be stopped.

### Misconstrued Our Article.

The St. Augustine Record, ever loyal to the Ancient City, in commenting on a recent article in the Daily News headed "Candidate for Cheap Honors," comments on the same to some length.

The News had no intention of detracting in any way from the reputation of the good city of St. Augustine or the vast amount of publicity that city has. Our only intention was to call attention to the beach, and in that respect our article was the consensus of opinion of many who have been there and rode over the same. However, if St. Augustine has the beach, no paper in Florida will be more ready to shout for it than the Daily News, recognizing as it does that the more points along the East Coast where automobile racing can be indulged in, the better for all.

A grand circuit embracing all the East Coast towns where a suitable beach can be found would be a great card and would draw many thousands of visitors. Give us a grand circuit by all means but don't run down the famous Ormond-Daytona beach.

## CARD PARTY AT THE RIDGEWOOD

Was a Recherche Affair. Forty  
Guests Entered the Military En-  
chre Contest.

A military enchre party was given by the gentlemen of The Ridgewood last night in which forty guests participated.

The parlors were decorated with flags, ferns and palms tastefully arranged, and presented a very attractive appearance.

Fort Dearborn, defended by Dr. Weiting and Mrs. Millard, Mr. Marrenner and Mrs. Plummer, was victorious and its defenders received handsome prizes.

Fort Hamilton, defended by Mr. Fairchild and Mrs. Foster, Mr. Millard and Mrs. Marrenner, captured the second greatest number of forts and its defenders were rewarded.

Fort Marion came out third best. Its defenders were Mr. and Mrs. Langworthy, Miss Murdock and Miss Langworthy.

The prizes were valuable and consisted of lacquered Japanese ware, silver souvenir spoons, handsome cloisonne jars and cut glass vinegar-ettes.

Mr. Langworthy agreeably surprised the contestants by having punch and other refreshments served when the contest ended.

### Auto Records Yesterday.

Mr. Christie made an alteration in the air valves of his machine yesterday, hoping thereby to obtain an increase of speed, but the change proved an error.

The racer ran with the same uniformity of speed which it did on Sunday, but at a slower rate. Four runs of a mile each were made while the News reporter was present, each mile being made in one-fifth of a second faster than the former.

For Sale. Edison Standard Phonograph, nearly new, 30 inch horn. Fine selection choice records, clear tone. Price low. Apply to O. A. Hitch, 323 N. Beach. 22-6t

Florida, under Act of Congress of March 3, 1879.

### Miami's New Canal.

Whatever tends to help one place  
in the East Coast helps each and  
every one, individually at any rate.  
The opening of the canal connecting  
Biscayne bay with the ocean, at Mi-  
ami, will eventually make that city  
a seaport of importance. By that  
time the canal connecting the Har-  
bor and Atlantic rivers may be  
finished, which would give an inland  
waterway over 300 miles long, pass-  
ing by many of the most beautiful  
spots in the State. The Miami Me-  
tropolis is now too optimistic in its  
anticipations of the great advantages  
which the city will derive from the  
opening of the canal.

With the opening of the canal  
through the strip of land across the  
bay and merging the waters of beautiful  
Biscayne Bay with those of the  
great Atlantic Ocean that laps the  
shore on the other side, there are  
inspired the first chapter of the  
canal, so to speak, that in the final  
and most momentous to Miami's  
future greatness as a seaport town  
and commercial city. It means that  
in the not distant future, two years  
or less, it will have a channel eight-  
teen feet deep leading from the  
harbor, or most side of the bay, to the  
unfathomable depths of the sea on  
the other. It means that in the  
years that are near, great ocean  
steamers and vessels of all descrip-  
tion will be plying to and from this  
port to those of Europe and foreign  
relations, bringing and carrying  
these articles of merchandise, trade  
and commerce that make every  
commerce and build up a city.  
It means, too, that the government  
and these individuals assisting in  
the digging of this channel by private  
means and expenditures have faith  
in Miami's future and vision  
and are aiding them along, and  
that it is destined to be a place  
of prominence, commercially and  
otherwise, with the seaport towns  
and cities of the south Atlantic. In  
this and many other ways is Miami's  
stability and future assured. The  
past and the present are monuments  
of this fact, and it is with a feeling  
of pride and satisfaction that its  
people realize that it is indeed a  
Magic City in every sense the words  
imply. Miami Metropolis.

### Another Good Performance.

The performance last night by  
the Ormond-Palmetto Company was  
one of the best yet given by that  
troupe during their engagement here,  
and was witnessed by a full house.  
There is not an inferior actor in the  
company, but the individual, St.  
Bacov, seemed to be a favorite  
with the audience in the play last  
night. The performance was re-  
peated this afternoon for the benefit  
of the ladies and children of the  
city. "The Moonshiner's Daughter"  
is on the boards for tonight. Miami  
Metropolis.

E. A. Turner and daughter,  
Youngstown, O.; Mrs. A. Thompson,  
Miss S. M. Thompson, Philadelphia;  
C. D. Scott, Miss DeWolf, Dubuque,  
Ia.; G. R. Ryan and wife, Grand  
Rapids, Canada, are guests of The Bennett.

### THE HALL OF FAME.

The prince of Montenegro has bought  
six automobiles in Germany. There  
are no railways in his country.

Professor Tinsdell, who was re-  
cently appointed to the chair of Scientific  
philosophy at Harvard, began life as a  
bookkeeper's assistant. His specialty is the  
Indian languages of South and North  
America.

Boswell Washington, Jr., the eldest  
son of Boswell T. Washington, has filed  
an application for appointment as pay-  
master in the army. The applicant is  
not a student at the Massachusetts  
Institute of Technology.

Virginia John S. Cunningham of Bath,  
Me., is the possessor of the largest lot  
for the first shipment of ice ever  
made out of the harbor of Bath in a  
large. The barge was the Sardinia  
and was towed out of the river Aug. 3,  
1905.

King Oscar II. has appointed Dr.  
Anders Angstrom, president of the Swe-  
dish college, Stockholm, knight of the  
Order of the North Star in re-  
cognition of his efforts in the cause  
of higher education among Swedish  
Americans.

Senator Alger, following his usual  
custom, presented a large number of  
letters of advice to the Senate some-  
times on New Year's day as well as  
presented an entertainment in that  
city given by the senator as a com-  
mitment to them.

Henry S. Prevost died recently in  
Lima, Peru. His father was one of  
the first Americans to establish a  
bank in Peru, having done so there  
more than twenty years ago. Mr. Prevost  
conducted his father's business and  
had extensive plantation interests in  
the country.

Professor Sherburne Wesley Barn-  
um, astronomer at the Yerkes ob-  
servatory, has received the Lalande  
gold medal of the French Academy of  
Sciences as a result of his researches in  
astronomy. Professor Barnum, it is  
said, has discovered more double stars  
in his work than any other living as-  
tronomer.

Mr. and Mrs. Walter T. Carpenter of  
Richmond, Ind., have been married  
thirty years. Mr. Carpenter is now  
eighty-four years old, his wife will  
be in a few months. Both are still  
active and drive in their carriage to  
the friends' meeting. Mr. Carpenter  
cares for his own horse and occasion-  
ally rides on horseback.

### BRITISH BRIEFS.

Headed 154 persons killed in street  
accidents in London last year, 1904  
were injured.

English newspaper correspondents  
are complaining of the disregard and un-  
clean treatment of broad on its way  
from the locker to the consumer.

The people of North Melbourne, Aus-  
tralia, decided at a recent local option  
poll that they had thirty-seven super-  
fluous hotels. These have now been  
closed, and compensation is to be paid  
to their owners and dwellers by an arbitra-  
tion court.

From a British War office order lately  
issued it appears that the most fre-  
quent of British soldiers' other occupa-  
tions are wearing his cap on the back of his  
head, so as to display effeminate and  
unmanly traits on the battlefield, and  
carrying a cigarette behind his ear.  
Bill "New Catcher" Lingo, one of  
the greatest long distance runners the  
world has ever seen, is an inmate of  
the workhouse at Suffolk, Lancashire,  
a decrepit, withered old man. His re-  
cord of 9 minutes 11.5 seconds over  
miles made in 1901 still stands as the  
professional record.

### Miami's New Canal.

Whatever tends to help one place  
on the East Coast helps each and  
every one, indirectly at any rate.  
The opening of the canal connecting  
Biscayne bay with the ocean, at Mi-  
ami, will eventually make that city  
a seaport of importance. By that  
time the canal connecting the Hal-  
fax and Matanzas rivers may be  
finished, which would give an inland  
waterway over 300 miles long, pass-  
ing by many of the most beautiful  
towns in the state. The Miami Me-  
tropolis is none too optimistic in its  
predictions of the great advantages  
which the city will derive from the  
opening of the canal.

With the opening of the canal  
through the strip of land across the  
bay and merging the waters of beau-  
tiful Biscayne Bay with those of the  
great Atlantic Ocean that laps the  
shore on the other side, there was  
finished the first chapter of the  
dream, so to speak, that in the final  
end must mean much to Miami's  
future greatness as a seaport town  
and commercial city. It means that  
in the not distant future, two years  
or less, it will have a channel eight-  
teen feet deep leading from the  
docks, or west side of the bay, to the  
unfathomable depths of the sea on  
the other. It means that in the  
years that are near, great ocean  
steamers and vessels of all descrip-  
tion will be plying to and from this  
port to those of domestic and foreign  
relations, bringing and carrying  
those articles of merchandise, trade  
and manufacture that make water-  
way commerce and build up a town.  
It means, too, that the government  
and those individuals assisting in  
the digging of this channel by pri-  
vate means and expenditures have  
faith in Miami's future and advan-  
tages, and are aiding them along,  
and that it is destined to be a place  
of prominence, commercially and  
otherwise, with the seaport towns  
and cities of the south Atlantic. In  
this and many other ways is Miami's  
stability and future assured. The  
past and the present are monuments  
of this fact, and it is with a feeling  
of pride and satisfaction that its  
people realize that it is indeed a  
Magic City in every sense the words  
imply. Miami Metropolis.

### Another Good Performance.

The performance last night by  
the Gagnon-Pollock Company was  
one of the best yet given by that  
troupe during their engagement here,  
and was witnessed by a full house.  
There is not an inferior actor in the  
company, but the inimitable Si  
Hastings seemed to be a favorite  
with the audience in the play last  
night. The performance was re-  
peated this afternoon for the benefit  
of the ladies and children of the  
city. "The Moonshiner's Daughter"  
is on the boards for tonight. Miami  
Metropolis.

E. A. Turner and daughter,  
Youngstown, O.; Mrs. A. Thompson,  
Miss S. M. Thompson, Philadelphia;  
C. D. Scott, Miss DeWolf, Dubuque,  
Ia.; G. B. Ryan and wife, Gusept,  
Canada, are guests of The Bennett.

## BREVITIES

### THE HALL OF FAME.

The prince of Montenegro has bought  
six automobiles in Germany. There  
are no railways in his country.

Professor Trombetti, who was re-  
cently appointed to the chair of Semitic  
philology at Bologna, began life as a  
barber's assistant. His specialty is the  
Indian languages of South and North  
America.

Booker Washington, Jr., the eldest  
son of Booker T. Washington, has filed  
an application for appointment as pay-  
master in the army. The applicant is  
now a student at the Massachusetts  
Institute of Technology.

Captain John S. Cummings of Bath,  
Me., is the possessor of the bill of lad-  
ing for the first shipment of ice ever  
made out of the Kennebec river in a  
barge. The barge was the Satehella  
and was towed out of the river Aug. 3,  
1874.

King Oscar II. has appointed Dr.  
Gustaf Andreen, president of Augus-  
tina college, Rock Island, Ill., knight  
of the Order of the North Star in re-  
cognition of his efforts in the cause of  
higher education among Swedish  
Americans.

Senator Alger, following his usual  
custom, presented a large number of  
suits of clothes to the Detroit news-  
boys on New Year's day as well as  
presided at an entertainment in that  
city given by the senator as a compli-  
ment to them.

Henry S. Prevost died recently in  
Lima, Peru. His father was one of  
the first Americans to establish busi-  
ness in Peru, having gone there more  
than seventy years ago. Mr. Prevost  
continued his father's business and  
had extensive plantation interests in  
the country.

Professor Sherburn Wesley Burn-  
ham, astronomer at the Yerkes ob-  
servatory, has received the Lalande  
gold medal of the French Academy of  
Sciences as a result of his researches in  
astronomy. Professor Burnham, it is  
said, has discovered more double stars  
in his work than any other living as-  
tronomer.

Mr. and Mrs. Walter T. Carpenter of  
Richmond, Ind., have been married near-  
ly seventy-one years. Mr. Carpenter is  
now ninety-four years old, and his wife  
will be in a few months. Both are still  
active and drive in their carriage to  
the Friends' meeting. Mr. Carpenter  
cares for his own horse and occasion-  
ally rides on horseback.

### BRITISH BRIEFS.

Besides 154 persons killed in street  
accidents in London last year, 10,292  
were injured.

English newspaper correspondents  
are complaining of the disgustingly un-  
clean treatment of bread on its way  
from the baker to the consumer.

The people of North Melbourne, Aus-  
tralia, decided at a recent local option  
poll that they had thirty-seven super-  
fluous hotels. These have now been  
closed and compensation awarded to  
their owners and dwellers by an arbi-  
tration court.

From a British war office order lately  
issued it appears that the most fre-  
quent of Tommy Atkins' minor offenses  
are wearing his cap on the back of his  
head, "so as to display effeminate and  
unsoldierlike curls on the forehead,"  
and carrying a cigarette behind his ear.

Bill "Crow Catcher" Lang, one of  
the greatest long distance runners the  
world has ever seen, is an inmate of  
the workhouse at Salford, Lancashire,  
a decrepit, withered old man. His rec-  
ord of 9 minutes 11 1/2 seconds for two  
miles made in 1893 still stands as the  
professional record.

Prices 25c, 35c, 50c and 75c. Tickets now on sale at Atwood Pharmacy

#### Fell Overboard.

A little excitement was caused at the Halifax River Yacht Club dock last evening caused by the falling overboard of a lady who was there intending to go for a moonlight ride.

The News reporter was unable to obtain the lady's name, but he learned that the lady had been cautioned to remain near the corner of the building until the boat was placed at the landing.

This warning she failed to heed and while walking around fell overboard in water seven feet deep. Mr. J. Carver promptly jumped overboard and rescued her.

Geo. W. Tangle and wife, Springfield, Mass.; H. C. Avery, Jacksonville; E. W. Simpson and wife, Orange, N. J., are guests of The Colonnades.

M. V. Barber chartered the launch Cruiser this morning and had a party of twelve from The Howard as his guests aboard, bound for the Tomoka.

J. W. Johnson has nearly completed his cottage on south Beach street. The cottage is two story, has hot and cold water throughout and will be lighted by electricity.

F. J. Robinson, assistant general passenger agent of the Central of Georgia, is in the city advertising the advantages of his road for tourists bound westward. He states that two fast trains leave Jacksonville daily for the west, one at 9:00 a. m., the other at 8:05 p. m., these trains being known as the Dixie Flyer and Chicago Limited.

#### HINTS ON ETIQUETTE.

An invitation to a dinner requires a personal call upon the hostess a week after the event.

The bride selects the colors to be worn by her maid of honor and the bridesmaids, and they must yield unquestionably to her taste and wishes.

When paying calls in a strange city the temporary address should be written on the card in the opposite corner from the permanent or home address.

When calling upon a friend visiting at a home where the hostess is unknown to you two cards must be left, one for the guest and one for the hostess.

#### EDITORIAL FLINGS.

No other city disputes Boston's title of Hub. Too suggestive of wheels.—Louisville Herald.

In this country there are, according to the census, fifty-one girls to every forty-nine boys. Yet in spite of the census almost any boy will tell you that there is only one girl.—New York Mail.

A Cincinnati girl horsewhipped the man who had jilted her and then ducked him in a horse pond. She might have carried the punishment farther by compelling him to marry her.—Washington Post.

California's botanical wizard is too practical to waste time on blue roses. He has already produced many valuable varieties of fruit and even hopes to improve on the Boston bean.—St. Louis Globe-Democrat.

The literary men are being sent as consuls to the sunny places, where they will get bright ideas. The politicians will continue to get the foggy stations, where the most money is to be made.—New York Commercial.

#### SHORT STORIES.

Apples are the most extensively used of all the fruits.

A statistician states that there are fewer Freemasons to be found among lawyers than in any other profession.

Steam has by no means made sailing vessels obsolete. The total number of them in the world is still 65,364 as against only 30,541 steamers.

One of the show bottles in a Derby (Conn.) drug store contains the same coloring matter that was placed in it in 1864. It is just as bright a blue as it was the day the bottle was closed.

Anemia causes nearly one-quarter of the deaths on the island of Porto Rico. It is believed that the disease is caused by parasites in the blood, and a successful remedy has been found in thymol.

There are 252,430 miles of ocean cable in operation today, and only 38,797 miles are owned by governments. The British cables, which connect London with all parts of the world, have a total mileage of 154,000.

#### HINTS ON ETIQUETTE.

A call is not necessary after a ten or afternoon reception.

First calls should be returned within a week or ten days.

The visiting card may be used in issuing informal invitations.

At the wedding all expenses except the clergyman's fee are borne by the family of the bride.

Paper and envelopes should match. Mismatched paper gives the letter a cheap, untidy appearance.

A wedding invitation requires no answer unless the request to respond is engraved on the invitation.

A gentleman making a call upon a young lady invariably asks for her mother, her chaperon or hostess.

## A Good Time for Your Palate

will certainly be yours if you drink our cool, effervescent

### Soda Water

it exhilarates and benefits all who partake of it. It gives a delicious twang to the tongue far surpassing ordinary soda water. Manufactured from perfectly pure materials and in utensils of the utmost cleanliness, it pleases all lovers of good things. As sure as truth never was indelible to a lie, our soda water stands on its own merits.

which are property a part of the town

and population.

Daytona Beach

is one of the best of the town.

It is approached by three good bridges

over the river and well-landed areas

and is the principal summer resort

of the south of St. Augustine. It has

no other place south of that city com-

pared with it in its beauty and in its

location. It is also becoming a favorite

winter resort. The beach is wide

and smooth, by many considered

the finest in the world, and the surf

riding is safe and enjoyable in winter

and winter. People who have tried

Northern and Western summer resorts

declare that there is none so perfect

as Daytona Beach.

Automobile Race Meet.

Fare one way.....\$3.30  
Round trip.....6.60  
74 Miles from St. Augustine.  
Fare one way.....\$2.20  
Round trip.....4.40

DAYTONA is situated upon the west bank of the Halifax River at its widest expanse and midway between its source at Bellow Bay and its outlet at Mosquito Inlet. It is in latitude 29, seventy-four miles from St. Augustine and one mile from the Atlantic Ocean, and is acknowledged to be without a rival for beauty among the villages of the South. Its site is upon what is known as high land, a land that was crowned by nature with a most royal growth of majestic forest trees, and about these trees is the town of today, with its beautiful cottages and well-graded streets. The result is that all along the wide avenues that intersect the town are lovely live and water oaks and hickories, many of them draped with graceful festoons of the gray Spanish moss, that overarch the street and walks, and among these are interspersed tall tropical palmettos, glossy-leaved magnolias, fragrant bays and coral-berried holly, and many other varieties, while in many places the wild grape, the trumpet vine and the angelic climber and cling among the branches forming shady bowers and adding grace and beauty.

The town lies parallel with the Halifax River, and extends for nearly two miles along the shore. This river is the delight of the angler and the yachtsman and forms one of the town's greatest attractions.

The main avenues that run parallel with or intersect the river are an 100 feet wide, except Beach street, which is about sixty-five feet, but has a half mile of open, beautiful water abutting upon its eastern side, where the salt waves ebb and flow and along and across which comes the cooling, invigorating and health-giving breezes from off the wide Atlantic, which temper and render the Halifax climate one of the most perfect in the world. Daytona has many miles of well-graded, macadamized and shelled roads and streets, rendering it the

**Wheelman's Paradise**  
Added to these, but a mile away, are thirty miles of smooth, hard beach, that affords an unrivalled course for long distance cycling and driving or automobile racing. No town of equal size, North or South, numbers so many wheelmen, and cycling is a favorite pastime with the tourists summer and winter.

**The Beautiful Cottages**  
That have been erected during the past years and are being built are rendering Daytona as famous for its fine homes as for its beautiful river, trees and avenues, and they are adding yearly to its attractions.

Not the least of these attractions to those securing homes in the South, and ranking second only to healthfulness and perfection of climate, is the fact that its population is chiefly composed of cultivated and intelligent people, accustomed to the refinements of home and social life. Added to these features are good churches, good public and private schools, stores, hotels, laundry, meat markets, novelty works, an opera house, electric lights for street and house illumination, a good telephone system, ice factory, Lily Water Works, and hot and cold baths, etc., and everything else can be procured that is necessary to make life comfortable. An important feature in the healthfulness of this town is the

**Water Supply**  
which is derived from numerous flowing wells, of which there are probably 200 in the corporate limits. This flow is secured by boring wells to the depth of from 80 to 120 feet, passing through several strata of rock, and this depth assures purity from all surface contamination. The water is slightly impregnated with magnesia and iron, and holds sulphur in the shape of gas, which soon passes away.

**The Population of Daytona**  
proper is about 1,800. Added to this is a suburban population on main shore and peninsula of about 1,000 at Kingston, Blake, Old Seabreeze or Goodall, Seabreeze and Silver Beach,

which are properly a part of the town and population.

### Daytona Beach

lies one mile east of the town. It is approached by three good bridges over the river and well-graded avenues, and is the principal summer resort south of St. Augustine. It has more tourists during the summer than all other places south of that city combined, and is also becoming a favorite winter resort. The beach is wide, firm and smooth, by many considered the finest in the world, and the surf bathing is safe and excellent summer and winter. People who have tried Northern and Western summer resorts declare that there are none so perfect in comfort as Daytona beach.

### Automobile Race Meet.

The Florida East Coast Automobile Association conducts an annual race meet on the beach, which has now a universal reputation as the greatest automobile race course in the world. The Daytona-Ormond Beach is hard as macadam, and an ideal stretch of thirty or more miles without a break makes it the natural racing ground for America.

At low tide the beach is barred for 200 feet and neither carriage wheel bicycle or pedestrian can make a barely visible imprint on the smooth and well-packed sand. It is no uncommon sight to see sail rigged bicycles speeding with the velocity of the wind before a stiff breeze along the smooth beach, thus affording the most exhilarating sport known to man. Besides these, miles of hard-shelled, palm-fringed boulevards bring the lovers of the wheel and vehicles into direct touch with the mainland over the broad bridges which span the splendid Halifax River.

The beach from the sandy bluffs to the lowest point at oblique, measures about 500 feet, and the average depth of the surf measures about two feet. A continuous gentle swell rolls in from the ocean from one to two feet in depth under normal conditions, making the beach an attractive and absolutely safe place for surf-bathing. Here the infant as well as the grey-haired veteran of many summers, can safely enjoy the luxury of a sea bath throughout the larger part of the year, while the strong and expert swimmer, can venture out further to test his strength and skill in battling with the inexhaustible powers of the mighty ocean.

**The Peninsula**  
lying between river and ocean is one-half mile wide, and is being rapidly improved, and there are many fine cottages and several good hotels, a opera house, two ocean piers, beach pavilion and a large casino.

### A Remarkable Feature

At Daytona has been the yearly improvement in the style and value of the buildings that are being erected or homes. Men of capital of the North and West have become awakened to its advantages for winter residences, and valuable lots are being purchased and costly houses, beautiful in design and finish, are being erected, and beautiful homes, the abodes of wealth and culture are multiplying. Seabreeze (City Beautiful) and Goodall are settlements on the Ocean side of the peninsula across the Halifax River from Daytona.

At the foot of Ocean Boulevard, Seabreeze, a pier reaches 600 feet across the beach into the swelling surf of the ocean. This pier is a favorite resort of those who delight in the sport of fishing. The surf here abounds in trout, pompano, yellowtail, cavalle, whiting, drum, sheephead and many other varieties of edible fish. During the fall season the famous sea bass affords royal sport, and it has been no uncommon occurrence to land a thousand pounds of this gamey fish in an afternoon, individuals of them ranging from fifteen to thirty-five pounds in weight. Not only does the ocean offer this splendid sport but the Halifax River, only half a mile back of the ocean, is equally famous for its fine fishing, and the varieties that abound in the ocean are present in the river.

Hunting and fishing good. Experienced guides and dogs may be had at reasonable prices.

### The Secret Societies.

Free and Accepted Masons—Halifax Lodge No. 81 meets first and third Thursday of each month at 7:30 p. m.

Halifax Royal Arch Chapter No. 5—Meets second Thursday of each month at 7:30 p. m.

R. S. T.—Halifax Council meets third Tuesday of each month at 7:30 p. m.

Knights Templar—Oriental Commandery No. 9 meets fourth Thursday of each month at 7:30 p. m.

Order of Eastern Star—Live Oak Chapter meets second and fourth Tuesday of each month at 7:30 p. m.

Knights of Pythias—Lionel City Lodge meets first and third Mondays of each month at 7:30 p. m.

Improved Order of Red Men—Oscola Tribe No. 21 meets first and third Wednesdays of each month at 7:30 p. m.

Knights of Honor—Daytona Lodge No. 3562 meets second and fourth Fridays of each month at 7:30 p. m.

Fraternal Union of America—Meets second Monday of each month at 7:30 p. m.

Grand Army of the Republic—Joe Hooker post holds camp fire first and third Friday of each month.

### CLUBS.

Halifax River Yacht Club—Meets at the Club House every Wednesday evening.

Palmetto club meets in Opera House building. Mrs. E. R. Johnson, Secy.

Florida State Troops—Company "K" Second Infantry, located at the Armory on Volusia avenue every Tuesday night, J. B. Parkinson, Capt. Com.

Florida East Coast Automobile Association—meets at Club House on the Beach the first Friday night before full moon.

### CITY OFFICIALS.

Mayor.....Charles L. Smith  
City Clerk.....J. W. Wilkinson  
Treasurer.....Frank T. Peck  
Assessor.....C. M. Bingham, Jr.  
Collector.....H. F. Douglas  
Marshal.....M. H. Zuber  
Aldermen—Edward G. Harris, president  
Henry Schmidt, Geo. H. Clark, Geo. H. Andrews, A. McF. Porter, J. A. Hendricks and Jerome D. Muley.  
Council meets second and fourth Monday of each month at 7:30 p. m.  
City Attorney.....C. H. Spencer  
City Physician.....Dr. H. H. Seely  
School Trustees—Geo. H. Ludwig, C. M. Bingham, Sr., and B. F. Marsh.
